Dr. Harish Patidar
Head of the Department

From The Desk of HOD

As we approach the midpoint of the semester, I wanted to take a moment to remind you all of the importance of staying on top of your coursework. By now, you should have completed all assigned tasks and be preparing for the upcoming mid-semester tests.

I encourage you to review your notes and textbook regularly, and seek help from your instructors or classmates if you're struggling with any concepts. It's also essential to manage your time effectively, balancing study and revision with other aspects of your life.

The mid-semester tests are a crucial milestone, and I urge you to take them seriously. They will not only assess your understanding of the material but also help identify areas where you need to focus your efforts.
