Computer Science  
& Engineering

JULY 2024

Volume 1

Issue 7

## From The Desk of HOD

**Dr. Harish Patidar**  
HOD, Associate Professor  
DEPARTMENT OF CSE

Dear Students,

As we begin a new month, I wanted to take a moment to emphasize the importance of regular class attendance and consistent practice in achieving academic success. Attending classes regularly not only helps you stay on top of coursework but also provides opportunities for engaging discussions, clarifying doubts, and building connections with peers and instructors.

In addition to class attendance, I strongly encourage you to practice practical questions on online platforms like LeetCode, GeeksforGeeks, and HackerRank. These platforms offer a wealth of resources to help you hone your problem-solving skills, coding abilities, and critical thinking. Regular practice will not only enhance your understanding of concepts but also prepare you for future challenges and opportunities.

Let's work together to make this semester productive and successful.
